AYER'S CATHARTIC PILLS.

A new and singularly successful remedy for the cure of all Billious diseases — Costiveness, Indirection, Jaundice, Bropsy, Ebeumatism, Fevers, Gont. Humora, Nervonsness, Irritability. Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a learnless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feveriah symptoms, and Billious derangements. They all tend to become or produce the deep-seated and formidable distempers which load the bearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients has shown results surpassing my thing latherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by presents of sinch exatined position and character as to forbid the empirical position and character as to forbid hescapicion of untitu

Did space permit, we could give many hundred certificates, from all parts where the Pills have been need; but evidence even more convincing than the experience of aminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are coffered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of parity, and combined regulate in such a manner as to insure the best results. This system of composition for medicines has been found, in the Cherry Pectoral and Pills both, to woolace a more efficient romedy than had hitherto been obtained by any process. The reason is perfectly obvious, while by the old mode of composition, avery needline scal

Being sugar wrapped, they are pleasant to take, and being purely regetable, no harm can arise from their use in any quantity.
